

Scottish Paediatric Endocrine Group (SPEG) Network  
Patient Advisory Group (PAG)

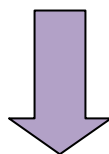

Patient Advisory Group flyer presented to patients and families through  
Paediatric Endocrine Nurse Network and Third Sector Organisations

Completed flyer is scanned and returned to SPEG's Patient Representative

Patient Representative adds patient and family names to spreadsheet and  
will invite family to join the Patient Advisory Group

If SPEG is planning a family day or wishes to consult with the Patient  
Advisory Group, the Patient Representative can circulate details around the  
PAG distribution list
